Man's will, regardless of its intensity, he is still necessary and sufficient condition to make himself emotionally elevated above the level of the child!

The man has not yet made another step that distanced him from the earthly Paradise!

Remembering that needs to be refined: the attempt of man to the cerebral cortex reveals your past!

Sloboda: prvi pravi čovekov korak kojim je izbačen iz Raja i lansiran na Zemlju od strane razvijenije civilizacije!

Čovekov stupanj razvoja još uvek je nedovoljan za neke ozbiljnije spoznaje o sebi!

Čovek na ovom stepenu razvoja, još uvek nije jasno definisao razliku svog prirodnog božanskog porekla i prirodnog životinjskog porekla!

Što ti je ljudska sudbina! Čovek se u životu ruga i smeje drugimada bi na kraju bio i sam ismejan!

Freedom: man's first real step which was thrown
him out of Heaven and Earth launched by
advanced civilizations!

A human level of development is still inadequate
for some serious insights about you!

The man at this stage of development is still not
clearly defining the difference of its natural divine
origin and natural animal!

What is human destiny! The man in the life of
mocking and laughing to the others at the end
and he was ridiculed!

Čovek kao veštačka tvorevina neke od civilizacija,
uzalud traga za nekim svojim putem, bez prave
pomoći od strane te iste civilizacije!

Zašto čovek još uvek nije prepoznao i definisao
sve vitalne parametre svog bića!

Čovek u davna vremena nije imao dovoljno
informacija, pa je grešio. Danas informacije obično
pogrešno tumači, pa je efekat katastrofalniji!

Budala – čovek koji u pravom trenutku bude
ubačen u bubanj sreće, a kasnije bude izbačen iz
njega zahvaljujući svojim glupostima!

Man is an artificial creation of some of civilization, in vain for some sign of his way, without any real help from the same civilization!

Why the man has not yet recognized and defined all the vital parameters of his being!

The man in ancient times did not have enough information, but he was wrong. Today information is usually misinterpreted, so the effect is catastrophic!

Fool – a man who is at the right time inserted into the drum of happiness, and then ejected from it thanks to his nonsense!

Inspiracija: čoveku je u određenom trenutku
izvan njega nametnuta potreba za
samodokazivanjem!

Šta je čovek hteo da postigne time što je svoje
božansko poreklo srozao Darwinovom teorijom?

Šta je sve u čovekovom životu podređeno
jednokratnoj upotrebi?

Zahvaljujući kojim prirodnim pretpostavkama je
čovek još uvek na planeti Zemlji?

Inspiration: The man is in a certain point out of it
imposed the need for self-assertion!

What has man wanted to achieve by being his
divine origin slumped Darwin's theory?

What is all in a person's life subordinated
disposable?

Thanks to the natural assumption that man is still
on planet Earth?

Gde prestaje potreba čoveka za samim sobom?

Zahvaljujući snažnoj volji za opstankom, čovek je
sebe spustio sa drveta na Zemlju!

Zrelost: vrhunac čovekovog razvoja pre
katastrofalnog pada!

Čovek je vremenom zaboravio odakle je došao na
Zemlju zato se ovoliko dugo na njoj i zadržao!

Where does a man need for you?

Thanks to the strong will to survive, the man
hung himself from a tree on Earth!

Maturity: the pinnacle of human development
before the catastrophic fall!

The man was eventually forgotten where he came
from to Earth so this long he stayed!

Kada čovek suviše zastrani u izopačenostima,
jedini spas vidi u obraćanju Bogu!

Da li su dela koje čovek ostavlja narednim
generacijama dovoljan preduslov za njegovu
besmrtnost?

Čovek je Božiju zapovest “Ljubi bližnjeg svog“
pogrešno shvatio i to mu se osvetilo!

Kada je čovek shvatio da razliku među polovima
treba iskoristiti za produžetak vrste?

When a man strayed too long in distortions, the
only salvation in an address to see God!

Are the works that the man leaves future
generations a sufficient prerequisite for its
immortality?

Man is God's commandment to "love your
neighbor" misunderstood and that his revenge!

When has man realized that the difference
between the sexes should be used for the
extension of the line?

Prazno vreme je produkt praznog čoveka!

Gde je u čoveku linija razdvajanja između ljubavi
i mržnje?

Čovek je poput ploda: rodi se, raste i na kraju
sazri!

Čovek generacijama trči stazom koja se zove
život. Prolaskom kroz cilj, za njega je životna trka
na ovoj planeti završena!

Empty time is the product of an empty man!

Where is the dividing line between love and hate
in man?

The man is like a fruit: he is born, grows and
matures at the end!

Man is by generations running trail that is called
life. Passing through the goal, for him life race on
this planet is over!

U mnogim situacijama veličina čoveka kao pojedinca proističe samo iz njegovog kultivisanog odnosa prema drugom čoveku!

Priroda je neposredna veza čoveka sa Bogom. Ono što je izvan nje, predstavlja neposrednu vezu Boga sa svojom prirodom!

Transformacija koja traje: za razliku od drugih vrsta, čovek tokom svog leta kroz život vrši lagano usklađivanje duha i tela!

Čovek se razlikuje od životinje samo po tome što svoju pakost uvek usmeri samo ka srcu drugog čoveka!

In many situations the size of man as an individual stems only from his cultivated relations to man!

Nature is a direct relationship of man with God. What is beyond, a direct connection between God and his nature!

The transformation that lasts: Unlike other species, man during his flight through his life easily synchronizes mind and body!

Man differs from animals only in that his malice sends to the heart of another man!

Poraz čovekov ostaje i dalje unutar gorčine
pobede, kao sastavni element jednostavnosti!

Čovek je često napunjen kao brod problemima, a
izduvan kao balon nakon njihovog rešavanja!

Čovek se stalno uči na greškama, verovatno još
uvek nije dovršio slagalicu koja se zove životno
iskustvo!

Kažemo da je čovek naše najveće blago, ali tokom
provere tih vrednosti ožiljci na njemu su urezani
kao kanjoni!

The defeat of man remains within the bitterness
of victory, as an integral element of simplicity!

Man is often filled as vessel problems, and
deflated like a balloon after their solving!

The man is constantly learning from mistakes, he
hasn't probably completed the puzzle called life
experience!

We say that man is our greatest treasure, but
while checking these values scars on him are
engraved like canyons!

Rezultat promene danas: čovek provučen kroz
iglene uši!

The result of the change today: the man pulled
through the eye of a needle!

Zemlja, Istorija, Priroda

**Iz večnog praha potičemo, bivstvujemo, a
onda u večni prah odlazimo!**

The Earth, History and Nature

**From the eternal powder encourage, exists,
and then to eternal dust leaving!**

Ono što mi nazivamo prirodom, samo je deo
međucivilizacijske laboratorije!

Čovek, na ovom stepenu razvoja, još uvek nije
jasno definisao razliku svog prirodnog božanskog
porekla i prirodnog životinjskog porekla!

Ukoliko ne mislimo na okruženje, vrlo brzo ćemo
se pitati kada nam ističe viza za boravak na
Zemlji!

Kada se poklope kazaljke na satu, postoji
verovanje da neko misli na nas. Kada sklopimo
oči, možda jedino Bog počinje da misli o nama!

What we call nature, is only part of Civilization laboratories!

A man, at this stage of development, is still not clearly defining the difference of its natural divine origin and natural animal origin!

If you do not think of the environment, we will soon wondering when we're running out of visas for stay on Earth!

When hands on clock set together, there is a belief that someone is thinking of us. When we close our eyes, perhaps only God begins to think about us!

Koliko nam treba do Raja? Mostovi spajaju obale
reka, a ljubavi spajaju ljudske duše!

Zaostavština za budućnost:
odaberimo za sebe samo ono što će nam ubuduće
biti zvezda vodilja,
odbacimo od sebe deo sebe, koji je neupotrebljiv,
ostavimo iza sebe deo našeg Ja, koje zbog
nedefnisnosti nije ni postojalo,
počnimo novi život sa onim zdravim delom koji je
u nama ostao,
definišimo sebi šta hoćemo, gde stremimo, koliko
možemo, za koga i zbog koga se žrtvujemo, i
najzad, o kojoj i o kakvoj sreći i budućnosti
maštamo!

Iz istorije smo preskočili mnoga poglavlja zato
smo često na popravnom ispitu!

How long will we need to get to Heaven? Bridges
connect river banks, and love merges the human
soul!

The legacy for the future:
Let's choose for ourselves just what will continue
to be the guiding star to us,
Let's lay aside part of myself, which is unusable,
Let's leave behind part of our ego, which because
unedifying did not exist,
Let's start a new life with those healthy part that
is in us staying,
Let us define ourselves what we want, where we
aspire, as we can, to whom and why the sacrifice,
and finally, the one about the kind of future
happiness and imagination!

From history we skipped many chapters because
we are often the makeup exam!

I na skučenom prostoru Zemlje, čovek je našao
dovoljno mesta za mnoge svoje poroke!

And in the confined space of the Earth, man has
found enough space for many their vices!
