O HAIKU ZBIRCI „KRUG PLAVE PČELE“

*Krug ispuštenih slova.
Pesmu cvrčaka
šapuće odjek.*

Autor zbirke „Krug plave pčele“ svojim stihovima dočarava iznenađujuće bogatstvo poetskog i likovnog. Redaju se nadahnuti stihovi, kojima pesnik kao slikar kistom oslikava rečima svoje viđenje sveta, malo pomerenog u odnosu na našu svakidašnju grubu realnost, sveta u kome se dešavaju neobične pojave, sveta izniklog iz mašte, sveta stvorenog rečima, sveta ispunjenog pesmom cvrčaka....

*Čigra brzih munja.
U vrtu razlika
Cvetaju zvezde.*

U autorovom svetu na nebu cvetaju zvezde, uveo mesec tone, vetar niče, dok se na nebu vrti „čigra brzih munja“. Posebno je neobično samo vreme. Ono teče kao reka i utiče u okean svetrajanja, u univerzalni oganj nastajanja – nestajanja. Ustvari ceo ovaj svet je izatkan prevashodno od niti vremena.

*Povorka maski.
Poljem deteline
Lutaju oči.*

Tajanstvena povorka pod maskama odmiče poljem deteline praćena pogledima posmatrača, među kojima se po samoj prirodi stvari nalazi i čitalac, koji se pita da li se radi o nekom ritualu ili prosto o karnevalskom veselju.

*Dugi zub dima.
Na ušću vremena
Veje pepeo.*

Iz ovih stihova se rađaju čudna bića: plave pčele, krilati puževi, beli gundelji, sede sove i mnoga druga stvorenja nikla iz izvora perom pesnika dočaranog. Vreme, prostor, san i java, prepliću se i zajedno čine tapiseriju oko koje je sve ispunjeno zujanjem plavih pčela.

*Krilati puž zore.
U plavoj travi trag
crva zaborava.*

*Jato sedih sova.
Mesečev rog seje
zvezdani prah.*

U Tvorevini snohvatnoj pisac tvorac daruje život i svesnost svim pojavama. Sve je posuto zvezdanim prahom snova, izatkano majstorskim stilom, uokvireno i osenčeno paspartuom kratke pesničke forme, pretežno slobodnog na originalan način komponovanog haikua.

Ostaje nam posle čitanja ove zbirke osećaj prijatnosti i punine kakva se oseća posle razgledanja prelepe izložbe slika ili posle probanja tek vrcanog meda (kakav li je tek med plavih pčela?). Nadajmo se da će nas pesnik u ne tako dalekoj budućnosti obradovati i obogatiti novom zbirkom.

HAIKU COLLECTION „CIRCLE OF THE BLUE BEE“

*round of omitted letters.
the echo whispering
cicada song.*

Author of haiku collection „Circle of the blue bee“ conjures by his verses a surprising wealth of poetic and of visual. He pours upon readers, as by magic, inspired verses, by which he, like an artist with paintbrush, paints with words his picture of the world, strange world somewhat displaced in relation to our world of rough reality. Curious events happen in his world, the world born out of imagination, the world created with words, the world vibrant with song of crickets...

*speed lightning swirl.
in the garden of differences
stars flower.*

In the Author's world stars are blooming in skies, the fading moon sinks, wind sprouts, a „top of quick lightning“ is whirling in the sky. Especially strange is the time itself. It flows like a river and empties into the ocean of everlasting in the universal flame of creation-disappearance. In fact this whole world has been woven mainly from time threads.

*wandering eyes.
across the field of clover
mask procession.*

A mysterious procession under masks walks across clover field followed by onlookers among whom naturally stands the reader asking himself is he witnessing a strange ritual or simply a kind of carnival merrymaking.

*long tooth of smoke.
at the mouth of time
winnowing ash.*

From these verses strange beings have been created: blue bees, winged snails, white cockchafers, gray owls, and many other beings born from the Author's poetic source. Time, space, dream and reality, are intermingled into a tapestry around which blue bees are buzzing.

winged dawn's snail.
in blue grass the wormtrail
of oblivion.

old owls flock.
the moon like a horn
sows stellar dust.

In the Creation sprouting from dreams the writer creator gives life and consciousness to all phenomena.

Everything is sprinkled by star dust of dreams, weaved in masterly style, framed and shaded with pass part out of the short form, mostly in original way composed haiku.

Let us hope that the Author will in a not distant future make us happy and enriched with a new collection.

Plavi utisak / Impression in blue

Autor ovih haiku pesama na krilima vetra pod bleskom munja leti prostranstvima mašte i sakuplja inspiracije, isto kao plava pčela, koja u polju plavog maka sakuplja plavi cvetni prah.

Author of these haiku poems on the wings of wind under flash of lightning flies through imagine spaces looking for inspirations, as well as blue honey bee in the blue poppy field looking for blue flower powder.
